PROFESSIONAL SUMMARY

Global Project Manager with 10+ years of experience leading IT transformation and cross-functional programs across EMEA, APAC, and India, managing budgets, timelines, risks, and dependencies end-to-end. Proven ability to build project governance structures, bridge functional business teams and IT departments, execute change management plans, and deliver measurable ROI in both Agile and Waterfall environments. Coordinated 200+ international stakeholders, defined target operating models, and drove process transformation, saving 2,000+ FTE hours annually, equivalent to \$150K+ in labor cost savings. MBA-qualified, Germany-based, immediately available, and willing to travel up to 20% across Europe and globally.

PROFESSIONAL EXPERIENCE

Product Manager – IONOS | September 2025 – Present | Germany

- **Governed end-to-end delivery** across 8+ concurrent IT initiatives on a Domains & SSL platform serving **10M+ customers** and contributing to €500M+ in group subscription revenue, coordinating a cross-functional squad to achieve **20% improvement in sprint delivery efficiency**.
- **Tracked 15+ platform KPIs** using Power BI and Looker Studio, driving prioritized product decisions that contributed to an **18% improvement in domain retention metrics**, estimated to protect **€400K+ in annual recurring subscription revenue**.
- **Translated complex business requirements** into structured IT delivery plans, user stories, and acceptance criteria, reducing requirement-to-delivery cycle time across 3+ teams and **saving an estimated 200+ engineering hours per quarter**.
- **Maintained transparent stakeholder reporting** across 3+ internal and external groups, proactively managing risks, blockers, and milestone status, contributing to **zero critical delivery failures** across all 8+ active initiatives.
- **Reduced recurring support queries by 30%** through AI-assisted workflow automation and self-service documentation, saving an estimated **€60K+ annually** in support operational costs and freeing team capacity for higher-value delivery.

Project Manager – Ascendeum | January 2023 – October 2024 | India

- **Planned and delivered 25+ B2B digital transformation projects** end-to-end, overseeing **€3M+ in combined client campaign spend** across DV360, The Trade Desk, and Xandr, with governance structures and risk registers from initiation to client sign-off.
- **Achieved 95%+ on-time delivery** across all client engagements by coordinating cross-functional teams in technology, analytics, and client services — protecting **€1.5M+ in contracted annual revenue** through consistent delivery performance.
- **Designed stakeholder communication and change management plans**, cutting decision turnaround time by **40%** and reducing scope creep incidents by 25%, saving an estimated **€120K+ in rework costs** annually.
- **Drove 20%+ platform performance improvement** through iterative delivery and data analysis, generating an estimated **€600K+ in incremental campaign ROI** across client portfolios through optimized targeting, bidding strategies, and audience segmentation.

Program Manager – Digital Media – Google Operations Center | March 2021 – January 2023 | India

- **Led program delivery and digital transformation initiatives** across **150+ enterprise accounts**, managing **€12M+ in annual media spend**, coordinating engineering, marketing, and operations teams to deliver against financial and timeline objectives.
- **Improved client KPIs by 18%** through structured performance optimization and campaign governance, generating an estimated **€2M+ in incremental client campaign value annually** and contributing to a 15% improvement in client retention rates.
- **Built automated Looker Studio dashboards** and reporting frameworks, eliminating **40% of manual reporting effort** and saving the team **1,200+ hours annually**, enabling faster strategic decisions across senior stakeholders.

- **Standardized project delivery frameworks** and governance documentation across 20+ specialists, improving delivery consistency by 30% and **reducing onboarding time for new team members by 50%** through structured playbooks and Confluence knowledge bases.

Program Manager / Project Management Specialist / Project Management Support Specialist – Amazon

| October 2015 – February 2021 | India

- **Directed IT transformation programs** across EMEA, APAC, and India, coordinating **200+ international stakeholders** and improving cross-border operational efficiency by **25%** — equivalent to **\$500K+ in annualized productivity gains** across the operational footprint.
- **Led change management execution for the Transparency Program** across EMEA, building governance and compliance frameworks that removed **500+ counterfeit listings**, grew seller participation by **25%**, and protected an estimated **\$2M+ in brand and marketplace integrity value**.
- **Redesigned IT-enabled workflows**, saving **2,000+ FTE hours annually** (equivalent to **\$150K+ in labor cost savings**) and earned the **CS Global JDI Award** for transformation and operational excellence, while training 50+ associates on new processes and KPIs.

CORE COMPETENCIES
